“MISSION TO SPACE”

SESSION 1: MISSION TO MARS

Explore the technology and engineering behind space travel in this exciting camp session! Learn about rocket design, rover development, and the challenges of Mars exploration. Discover the innovations that make interplanetary travel possible and gain insight into the future of space exploration.

Session 2: THE CHEMICAL COSMOS

Campers will explore the building blocks of the universe - from the creation of galaxies to supernova explosions. Make alien goo, analyze starlight with a spectroscope, and uncover the cosmic chemistry shaping our universe!

Session 3: ASTRONAUT ACADEMY

Blast off into an action-packed two-week adventure where kids train like real astronauts! Through obstacle courses, space science experiments, and teamwork challenges, campers will develop agility, problem-solving, and space knowledge. Join us for an unforgettable journey to the stars—mission success guaranteed!
